Wireless Data Receiver

NT5800

Wireless Data Receiver

This Wireless Bar Code Scanner is an ingenious device with unique trig
design and excellent performance. It is produced under advanced techniques,
finest chipsets and fully conforms with ergonomics requirements. It is fast
accurate in all 1D codes reading and programmed to better read incomplete or f
codes. It can be widely used in domains including commercial POS sys
supermarkets, warehousing and logistics, libraries, banks, transportation, p
service, industrial and manufacturing process management.

It is represents an optical combination of proven high property scan
technology and state-of-the-art ergonomics, featuring

-- Long-distant and fast transmission.

-- Data storage,

-- Scan number display,

-- Network construction, and

-- Application of Anti-jamming Frequency Hopping Technology.

This product brings convenience, comfort, high-speed and stability into your bar scanning.

1. It could be used as a collector, memory 4M can be extended to 8M

2. Never lose data, clear warning.

3. Intelligent uploading; can choose to upload data of last scans and resume upload from breakpoints.

4. No-messy-code programmed, data counting, repeated code and out of the b range warning, ID display.

5. Beeper and light indicates if the scanner is out of the base range and scanning automatically switch to storage mode.

6. Support one to one, one to many, many to one operation; and each base can resp to up to 254 scanners.

7. The terminal communicates with the base at long distance of 150 meters indoor 300 meters outdoor.

8. 1200MA replaceable lithium battery enables 6-10 hours continuous use after charge and avoids trouble of returning to factory for replacing battery. Base supp data transmission and battery charging.

9. Germany imported quartz scanning window; effective light penetrati scratch-proof.

10. Supports USB, PS2, RS232 and other designated interface.

Title	Parameter
Operating Channel	433MHz|SM
Communication Distance	150 meters indoor; 300　meters outdoor
Type of illuminant	650nm laser
Operation way	Hand-held or bracket-held
Bit Error Rate(BER)	1/ 800 million
Safety Performance	Meet the Grade Ⅰ National Criteria for Las Safety
Symbologies	EAN-8，EAN-13，UPC-A，UPC-E，Code 39 Code 93，Code 128，EAN128，Coda bar，Industr 2 of 5，Interleave 2 of 5，Matrix 2 of 5，M China Zip Code etc.
Supported Interface	RS232, PS2 Keyboard, USB
Scanning Method	Automatic/ Manual
Transmission Rate	RS232 Baudrate:2400-38400
Resolution	3mil (0.1mm)
Depth of Field	15-800mm(pos0.9)
Decode Speed	98 times/second
Reading Angle (pitch)	60°
Reading Angle (skew)	45
Operating Temperature	-20℃-45℃
Storage Temperature	-20℃-45℃
Operating Humidity	5%-85%
Storage Humidity	5%-85%
Power Voltage	5V
Working Current	68mA

| Static Current	48mA
Light Intensity	Daylight, 4000lux max
Electromagnetic Interference	Comply with en50081,part1 criteria
External Electromagnetic Interference Resistance	Comply with en50082,part1 criteria
Materials	ABS+PC
Exterior Dimension	Length*Width*Height: Reader: 183mm*75mm*105mm; Base (without antenna): 205mm*100mm*40mm
Weight	Reader: 195g; Base (with antenna): 230g

Configuring the scanner

Play around in the settings menu to configure the device to your exact specifications.

Setting Code	Description	Note
Normal Mode (instant upload mode)	Scan this code to enter normal scanning mode. Under this mode, data will be transmitted to the base upon scan. (defaulted)	The scanner emits 1 beep and the blue light flashes once when the base successfully receives signals. The scanner emits 3 beep and the blue indicator flashes 3 times when the base is not successfully associated with scanner. The scan result will be automatically stored in the scanner. Storage mode will be activated to replace normal mode when the base fails 3 times in a row receiving a signal.
	Scan this code to enter Storage mode.	Under this mode, the red light is on.

Barcode	Description	Indicator
Storage Mode	Under this mode, scans will be stored in the scanner.	The blue light will flash when a code is successfully read and stored.
Storage Mode	Scan this code to enter Storage mode. Under this mode, scans will be stored in the scanner.	Under this mode, the red light is on. The blue light will flash when a code is successfully read and stored.
Upload data	Scan this code to uploading stored data. All data in the scanner will be uploaded to the corresponding base. (Note: if the data of previous operations are not cleared but still stored in the scanner, they will also be uploaded.)	You can scan this code to re-upload all stored data when uploading is stopped due to improper base association. (During uploading, the scanner responds as under normal mode)
Upload data of last operation.	Scanner this code to upload data of the last operation (from the last startup) to the base.	

Pls note: the item has no Stograge Mode and Upload Data function after tested

-Item are shipped by Economy or Expedited Int'l Shipping with tracking number. Normally it will take about 15-25 working days to most of countries.

The parcel may be delayed due to less frequency of airline and inspection across the border.

FAQ

What shipping methods do we offer and what is the estimated delivery date?

We offers a complimentary tracking number for all the orders.They will be shipped by e-Package,Hong Kong Registered air mail /Singapore Post/Sweden Post.

Considering the complicated international shipping procedures, the following estimated delivery time table below is provided for reference only and will not necessar
shipment.

Delivery duration may various due to many reasons beyond our control, such as holidays,weather conditions, customs hold etc.

Especially in the holiday season , It may take even longer time due to less frequen of airline and inspection across the border.

The estimated delivery time is as follows:

Delivery Time	Countries
10 ~15 days--	United States, United Kingdom, Canada, Australia and New Zealand
15 ~ 25 days	Germany, France, Spain, Italy, Netherlands, Belgium, Austria and Switzerland
25-35 days	Rest of the world

International buyers please note: Import duties, taxes and charges are not included in the item price or shipping charges. These charges are the buyer's responsibil

Please check with your country's customs office to determine what these additional costs will be prior to bidding/buying.

Counties with strict custom rules and regulations like: Russia, Vietnam, Ukraine, Kazakhstan, Brazil, Chile, Uruguay, Israel, etc,

may take longer due to strict custom rules and regulations, not couriers delay.

Where can I check the shipping status of my order?

All items are sent by registered mail, please keep in mind that we ship most of our items in 1-2 working days after payment cleared,

a tracking number will upload as soon as the item is sent, and you will receive an email from eBay with all the details.

The posts requires 14 days or more from day of dispatch for lost inquiries, if you don't receive the item after 30 days of dispatch please contact us.

How are taxes and customs duties handled?

As per our data, less than 1 percent of packages are opened and checked by customs officials at their destination. In the event that your package is inspected, yo responsible to pay any taxes that have been assessed. Although the possibility of import taxes is very slim, We strongly suggest that you familiarize yourself with policy before making a purchase.

When ordering from us, the recipient is the recorded importer and must comply with all laws and regulations of the destination country. The customer is ultimately r that the product can be lawfully imported into the destination country. Please remember that some products may require special licenses or permits to import (such lasers). It is the customer's business to handle situations where products are confiscated by customs officials in their country.However,if you need any help us to custom,we can hellp you.

Where can I track my order？

You can track the all orders by using these websites:
ePacket：https://www.usps.com/Economy Int'l Shipping:http://www.singpost.com/ or http://www.hongkongpost.hk/eng/index.htm or http://www.swisspost.ch/Stand
Shipping:http://www.fedex.com/hk/ or http://www.ups.com/content/us/en/index.jsxClients must check their packages before accepting and signing for them
